### Gold moves over \$700 per ounce

What is the old saying; that a picture is worth a thousand words? Well then let me cut to the chase and show you a picture.

This is the parabolic rise in the price of an ounce of gold. We are on record many times and in many ways stating that we believed the magnitude of this move could (should) happen. We are not on record anywhere saying that it would happen so fast.

That leads us to try to answer the question, what's next? We aren't

selling yet and we'll be keeping you informed as we update Ellumination in the next week or two. In the mean time don't expect the pace of this move to keep up. Don't be surprised by a correction. Don't be surprised by \$1000.00 per oz! All the best, Paul Krsek
